RE: 5-ALKYL NICOTINES AND PROCESS FOR THEIR PREPARATION
Jeffery I. Seeman and Edward B. Sanders
USSN 132,557 filed 21 March 1980

Dear George:

Enclosed is the first Office Action for the above-named application. Also enclosed are copies of references cited by the Examiner. Those references already in your possession are not enclosed.

The inventors are presently reviewing the action and will no doubt supply us with some comments in due course.

After you have had an opportunity to review the action, perhaps we should discuss it over the phone. In any event, I would like for you to prepare a response before the due date of 24 September.

Very truly yours,

Susan A. Hutcheson
